About Me

I am a motivated and detail-oriented IT professional with a strong interest in technology, software, and networking. I have experience in troubleshooting hardware and software issues, supporting system maintenance, and learning new tools and technologies quickly. I enjoy solving technical problems, optimizing processes, and contributing to projects that improve efficiency and performance. I work well in team environments, communicate effectively with colleagues, and am committed to continuous learning to stay up-to-date with the latest IT trends and best practices. My goal is to apply my skills and passion for technology to help organizations run smoothly while growing my expertise in IT.

Education

(2024 -2027)
BSC IN INFORMATION TECHNOLOGY

The Open University

- Degree in Information Technology (in progress)
- Focus on software, web development, and IT systems
- Coursework includes Programming, Database Management, Networking, and Web Development

(2017 - 2019)

University of Moratuwa

- Full Stack Web Development Certificate – 2024
- Python for Beginners – Issued Feb 2025 | Skills: Python
- Web Design for Beginners – Issued Feb 2025 | Skills: HTML, CSS, JavaScript

Projects

Lucy Clothing Brand Website

Built a responsive e-commerce website using HTML, CSS, and JavaScript with EmailJS integration for handling customer inquiries. Added interactive features like product galleries and sliders to enhance user experience

Library Management System

Developed a Java-based system to manage books, members, and borrowing processes with an easy-to-use interface. Implemented search, add, and delete functionalities to improve library efficiency.
